Notes:

1. Students will be notified individually about the project allocation results normally few weeks after the enrolment period.
2. All group members should take part in these project progress updates.
3. Students should design the webpage at the beginning of the project and keep the webpage updated so that their mentors can closely monitor the progress of the project.
4. Mentors will submit progress marks on the Project Moodle. Students should communicate with their mentors and confirm the specific deadlines set by them. If students fail to complete a component before the deadline, they will receive a mark of zero for that component.
5. All group members should attend and participate in the presentation and oral examination.
